Art.WAT40466 / WAT40467

■ Overall and coupling dimensions

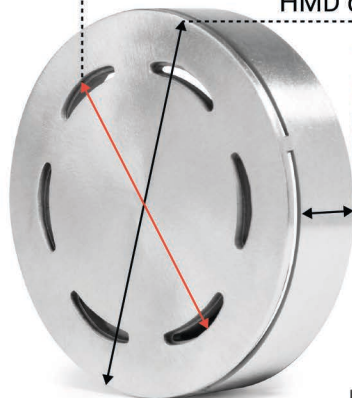

49 mm

Size for inner diameter of the bowl

76 mm

HMD diameter

15 mm
Height

Instr.WAT40466 / WAT40467 1

INSTRUCTIONS FOR USE

1. Heat the coal.
2. Put the tobacco in the bowl.
3. Wait until each side of the coal turns red and put the coal into the HMD.
4. Put the HMD with coal accurate on the bowl and wait 5-6 minutes until the bowl with tobacco warms up. After that start smoking.
5. You can control the heat by removing or adding coal.
6. After finishing smoking put the HMD with coal under water spray and cool it down. If necessary you can clean the HMD with a common metal dish sponge.

2

MADE FROM FOOD-GRADE STAINLESS STEEL AISI 304

- Stainless steel guarantees the reliability and durability of the structure.

*When heated stainless steel can acquire a golden tint.
